	2050761 Plus incl. 3 m cable
	2054045 Premium incl. 3 m cable
	Other configurations available on request

EXTRA PACKAGES FOR MORE VALUE

Service status

Slim Control Panel Premium

Your business relies on a functioning tail lift? What, if an error occurs and all of a sudden the tail lift cannot be operated any longer?

The PALFINGER SCP Premium may help localizing faults on the spot. If necessary, skilled service personnel will help.

Minimize down times with the SCP Premium.

Utilization of customer-specific software programs and sensors

If your business requires specific processes and sequences with your vehicles, customer specific software programs are a key to save time and resources. Some of these are:

- QuickDown
- SmoothTilting
- SelfLock
- EasyMove

PALFINGER helps you with any application needed: Want to switch on the lighting automatically while opening the tail lift? Want to pull down the tail lift exactly levelled even parking on a hill?

With any Slim Control Panel and an MBB Control Premium you can use the sensors and sequences that save time and make your business efficient and prosperous.

Check out PALFINGER's customer-specific software programs here

Illumination

Slim Control Panel Plus/Premium

Dusky mornings and afternoons can be difficult for tail lift operators. You don't want to use your cell phone torch or even a head lamp to operate your control panel.

The SCP Plus / Premium is illuminated by 8 LEDs behind the control panel. The Premium version even has each 4 LEDs behind the operating buttons that cater for excellent visibility in dim light situations.
