

## PALFINGER TAIL LIFTS

# TRAINING FOR PASSENGER SYSTEMS

Up-to-date teaching material, proper training equipment and experienced trainers offer you training just as you and your end customers need it for everyday work. Here you will learn everything about the functionality, operation, repair and maintenance of the PALFINGER PASSENGER SYSTEMS: Ramps, Medilifts and Trainlifts

**These are the main components of our trainings:**

- Basics and advanced courses of hydraulics and electrics
- Active troubleshooting based on hydraulic and electrical circuit diagrams (case studies)
- Installation, maintenance, repair and inspection
- Functional explanations of the components and, if applicable, the diagnostic software

## YOUR ADVANTAGES

**STATE OF THE ART**

- You are up to date with the latest technology
- You know the current framework conditions, as well as the corresponding documentation

**TROUBLESHOOT**

- You will learn how to rectify malfunctions quickly with simple hand movements
- The training content is adapted to the level of knowledge of the group
- All procedures are practice-oriented to support you maximally in your everyday life

**CERTIFICATION**

- The participant will receive a training certificate after completion
