

PTV COLUMN LIFT

SOLUTIONS THAT DO THE HEAVY LIFTING

LIFETIME EXCELLENCE

The new PTV Liftgate is built Interlift tough to handle daily operational heavy-duty challenges.

The redesigned gate is based on hard data: Using customer and maintenance providers feedback applying enhanced technology, structure, safety, performance, installation and maintenance details to make a game changing column lift.

Fleet managers and drivers have come to love this product due the ease of use and the reliability. The PTV Liftgate delivers more uptime with less maintenance, longer service life and lower cost of ownership—all helping you lift your business to new heights. Interlift is so confident in this product that we offer a longer standard warranty than others.

SERVICE

In addition to innovations and advanced technology, we believe excellent service after the sale is an essential component of our customers' success. That's why we have a proactive after sales & tech group plus more than 800 sales and service centers, 14 PALFINGER fully-owned sales and service locations, with a fleet of 100 + mobile field service trucks.

WARRANTY

When you choose INTERLIFT, you get more than advanced technology. You partner with a trusted supplier that's committed to building your business. Our PTV Liftgates offer a 3 year warranty on the pump and motor, cylinders, hardware and control system plus additional 2 year on closer cylinder hoses, runner switch harness and slide pads giving you the peace of mind you need to focus on the job ahead.

OPTIMIZED WEIGHT & MAX DURABILITY

COLUMN & STRUCTURE Features a two-piece construction with bolt-on column wrap with a built in air-gap designed to absorb dock impact forces. The wrap is bolted to the trailer channels of the bolt on system for extra strength and rigidity.

RUNNERS / CLOSER HOSES & SWITCHES High tensile runner tubes are laser cut for maximum precision and optimized strength while minimizing weight. The PTV incorporate a 5 year warranty on runner closer cylinder hoses, runner switch harness and slide pads.

ALUMINUM PLATFORM / WEAR COMPONENTS The aluminum platform with heavy-duty steel side bars & hinges is equipped with bushings, grease zerks and stainless pins. Optional steel platforms are available upon request.

HYDRAULICS / ELECTRICAL SYSTEM A self-bleeding series hydraulic system including hard lines to connect curb and street-side cylinders is coupled with a self-diagnostic electric power saving control system. The galvanized pump box with room for up to 3 batteries and a pre-installed hanger frame.

ADVANCED TECHNOLOGY SUPPORT

The PTV control system incorporates electric power savings technology & built-in diagnostics to improve electrical system longevity & greatly reduce trouble shooting lead times.

APPEARANCE & CORROSION PREVENTION

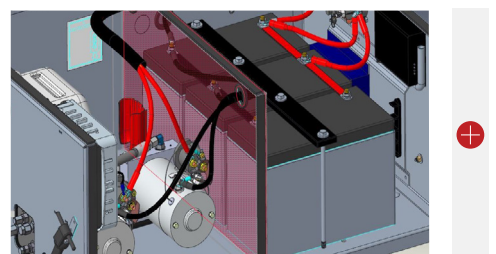

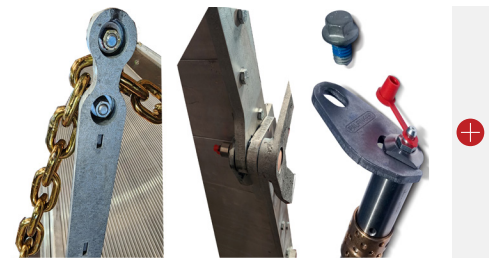

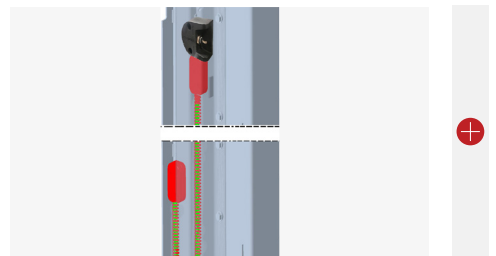

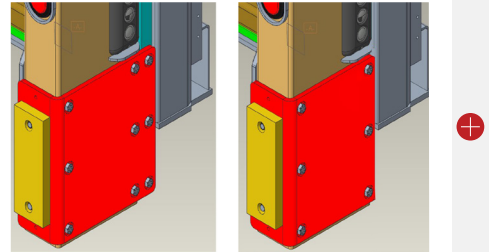

A clean, modern galvanized design complimenting today's delivery vehicles.

EASE OF USE / SAFETY

The platform opening is positively controlled by the operator. The electric motors are equipped with thermo-sensors. The battery box has standard insulated battery tie downs and red and black buss bars.

SERVICEABILITY

Standardized dimensions and a common parts design mean that your shop can quickly assist you if you need repairs.
